Our financial advice process

We look at your entire financial position, your needs and what you want to achieve in life before helping you plan how to get there. Then we guide you through a simple step-by-step process to create a financial plan just for you.

Understanding your goals

At our first meeting we will discuss your current situation and life goals to understand how financial advice can benefit you.

Considering the opportunities & risks

After understanding your circumstances, goals and attitude to risk, we will investigate the range of financial options available to help you reach your goals.

Building your financial strategy

Based on our discussions and research we will present you with a customised financial plan that is written in plain English, which will set you on the path to where you want to be.

Bringing your plans to life

We will work closely with you to implement your financial strategy step-by-step, so you can have as much control as you like, know where your money is going and why.

Staying on track with regular advice

Your strategies will be reviewed annually and you will benefit from our ongoing support and advice. We will stay in touch, ensuring your plan stays up to date as your life changes.

Our ongoing commitment

It's difficult to predict if and when things may change, and even harder to keep up with frequently changing legislation and its implications. We provide ongoing advice and management of your strategy, including regular performance reporting, communication about investment markets and maintenance of your investment portfolio and insurance coverage.

Our door is always open

You can contact us at any time, particularly if things change. Our team is always available to talk with you.
